Rebit™ Earns Top Innovation Award

Boulder County Business Report IQ Award – Computer Category

LONGMONT, Colorado

September 1, 2009

[Rebit Inc.](#), the company dedicated to relieving the burden of [backup for PC users](#), today announced that [Milwaukee PC](#) has launched [Rebit's complete backup and recovery software online](#), offering a 30-day free trial of the award-winning software at www.MilwaukeePC.com.

“Milwaukee PC has an inspiring history of achieving remarkable success against national retailers by providing significant customer service and value,” commented Charlene Murphy, executive vice president of sales and marketing, Rebit Inc. “Rebit’s software is a tremendous value for Milwaukee PC customers who need automated backup and recovery for everything on their PC.”

“Rebit’s software is absolutely the best choice for those who need easy-to-use, complete PC backup that is hassle-free,” commented Troy Salchow, general manager, Milwaukee PC. “If a customer’s computer crashes, there will be no regrets because Rebit backs up the entire PC, and that makes a big difference for our home users and small-to-medium businesses.”

Established in 1988, Milwaukee PC designs, manufactures and customizes computer products and services to end-users with over 20 stores throughout the state of Wisconsin. After 15 years, Milwaukee PC maintains a philosophy of providing outstanding customer service and aggressive pricing, and remains a formidable player in the Wisconsin computer market.

Rebit’s award-winning [backup and recovery](#) software is so simple, it actually gets used. Rebit provides complete and continuous backup of Windows-based computers. Unlike competing products that only copy data, Rebit protects applications, individual settings, and the entire operating system. It even maintains multiple versions of files as they change. In the event of a complete hard drive failure, a virus, or just an accidental deletion of a file, Rebit provides painless recovery using the familiar “drag and drop” feature of Windows Explorer.
